

DON THE TEACHER'S HAT

The field of science and its experiments provide a great range of opportunities for learning skills such as observation, recording data, drawing conclusions, making decisions, and solving problems. With this objective DAV Public School, Gole Market organized an event "Don the Teacher's hat" on 17th October 2023. Students of classes 3-8 donned the teacher's hat and demonstrated experiments and models in the class. Thus they got a chance to interact at different levels and learned while having fun.
