### Report on Speaking Skills Activity: "Interview Game"

#### Classes VI-VIII

The "Interview Game" was conducted for students of Classes VI-VIII as a part of their speaking skills development. The activity involved students working in pairs, where one student played the role of a reporter, asking questions, and the other portrayed a famous celebrity, responding to those questions. This interactive format allowed students to practice their public speaking, creativity, and role-playing skills. The activity helped build confidence, improve verbal communication, and encouraged active participation from all students. It was a fun and engaging experience for the participants, contributing to their overall skill development.
