Science Comic Strip activity

On April 21st, the DAV School hosted an engaging and educational Science Comic Strip Activity for students from classes 3 to 8. This event aimed to combine creativity with scientific knowledge, encouraging students to express scientific concepts through the art of comic strips. The recognized comic strips were shared on the school's social media platforms, celebrating the students' achievements and inspiring others. The event not only enhanced their understanding of scientific concepts but also encouraged them to think creatively and communicate effectively.
