

# MATH WEEK

Math week was celebrated from 20th December to 23rd December. A Special Assembly was conducted on National mathematics Day. Exciting math activities generated great interest in the students towards the maths subject.

The math week started with the engaging activities-- tell the number/operation/formula. On the second day of the week, a math dictionary which was made earlier was discussed.

On the third day of the math week, the students gave presentations in the groups on the famous Mathematicians/any topic from maths .

Fourth day was very interesting for the students as they enjoyed a lot in making toy/game through which they explained any mathematical term /operation. The main objective for celebrating math week was to arouse the love and interest of the students for maths subject.
