

NATIONAL ENERGY CONSERVATION DAY

"Energy efficiency is a journey, not a destination."

14.12.2022

National Energy Conservation Day was celebrated in DAV Public School, Gole Market on 14 December 2022. Every year on the 14th of December, Indians around the country commemorate National Energy Conservation Day. This endeavor aimed at creating awareness among the students on the conservation of energy resources.

A special assembly was conducted to celebrate the day. Students of class VI to VIII give some information about Energy conservation. A performance was given by the students of class VI to save electricity. Students took a sustainable pledge to save energy.

Reminder cards (Unplug me) were also made by the students and placed near the electric devices in school and their homes. These cards remind them to unplug the switches when the device is not in use.

Overall, it was an enriching and learning experience for the students.
