

Report on SCIENCE ACTIVITY

TOPIC : My Peer My Paddle

Dated: 21 April 2023

Classes: 6-8

Questioning can be used to promote independent learning .With this objective, an activity was conducted for classes 6-8. Students were asked to group themselves in pairs in which one child gave his/her crazy question to his partner and vice-versa. It was assigned a week prior to find out the scientific answer to the peer's question. Teacher announced the best pair based on the presentation of science related questions and logic explained. Students enjoyed it while learning.
