**Science in Toon's World
19 Dec 2022**

DAV Public School organized science Toon's activity for the students of classes 3rd to 5th on 19 Dec 2022. The objective of the activity was to connect children to science through their favourite toons. Science toons is a fast evolving educational means which aims to combine scientific concepts with humor, depict scientific phenomena with animations and illustrations, fill in the technical world of science with creativity and colors, to fuel in the vibrant imagination of children and provide them with an interesting medium of expression. The activity gave the children the unique learning opportunity to explore diverse scientific concepts beyond the textbooks and revisit them in a new light altogether.

Students participated with great enthusiasm and plethora of creative ideas in the Science toon activity.
