

Van Mahotsav celebration report

The Van Mahotsav is celebrated every year in the first week of July to raise awareness of tree plantation and forest conservation. In the light of the same the children were encouraged to plant immunity booster plants in school as well as at home. They are instructed to take care of that plant and water it daily. The students presented slogans, poems and motivational speech to Plant more and more trees and make the environment green and pollution free. The main highlight of the event was that the children grew plants in the school ground and watered them.

It turned out to be a successful event as everyone enjoyed it and became more sensitive towards the environment.
