

Report on Maths Almanac Activity "Be a Calculator"

Class - III to VIII

Date : 15.7.26

The students of Classes III to VIII enthusiastically participated in the **"Be a Calculator" Maths Race Activity**, organized to promote speed, accuracy, and logical thinking in Mathematics. The activity aimed to enhance students' mental calculation skills while making learning enjoyable through a fun-filled race.

Students competed in a series of exciting mathematical challenges involving addition, subtraction, multiplication, division, and number-based puzzles. At each checkpoint, participants solved the given question accurately. The race encouraged students to think quickly, work collaboratively, and complete the tasks with precision.

It successfully strengthened students' computational skills, boosted their confidence, and reinforced the idea that Mathematics can be both exciting and enjoyable.
