

## GREEN WEEK Science activities

Classes:- 3rd to 8th

DAV Public School, Gole Market celebrated *Green Week* from 21st to 26th April with a series of engaging activities to promote environmental awareness and scientific curiosity. Students participated in poster making and slogan writing on the theme of Earth's resources and their conservation. The "I Wonder" activity encouraged inquisitiveness as children asked thoughtful science-related questions. A unique flora naming initiative involved students generating QR codes for various plants in the school, which linked to their botanical names and features—explained enthusiastically by the students themselves. The week concluded with a collective pledge to protect and preserve nature.
